Skills

Frontend

TypeScript, Vue 2, Vue 3, Nuxt.js, Vuex, Pinia, React.js, Vuetify, VeeValidate, Stencil.js, GraphQL, TailwindCSS, SCSS, HTML, CSS

Architecture and CI/CD

Monorepo, Micro frontends, GitHub actions

Backend

Node.js, Nest.js, Fastify, Express.js

Testing

Vitest, Testing Library (React, Vue.js), Vue test utils, Jest, Playwright

Professional Experience

SeamlessHR

05/2021 – present

Lead Frontend Engineer

Lagos, Nigeria

Core maintainer of SeamlessHR's Vue.js design system component library. Mentors junior frontend developers, providing guidance and ensuring high-quality deliverables.

- Led the development of 40+ reusable and accessible Vue.js design system components, driving consistency and scalability across the company's products.
- Developed analytics dashboards for tracking employee performance metrics, utilising Chart.js for data visualisation and enabling real-time monitoring of team objectives and key results.
- Implemented an automated Performance Improvement Plan (PIP) system that tracks employees' performance reviews and recommends improvement plans based on the team's objectives and key results.
- Defined and monitored Core Web Vitals (FCP, LCP) using Lighthouse, setting measurable performance targets across products.

Olanna

03/2026

Senior Frontend Engineer (Contract)

San-francisco, USA

- Built real-time AI chat and voice conversation experiences, alongside knowledge-base management tooling and secure authentication flows (magic links, OTP, 2FA, OAuth).

Realtrac <i>Senior Frontend Engineer (Contract)</i> Built scalable frontend architecture and analytics dashboards for a real estate platform, including secure payment integration for global property purchases.	03/2023 – 02/2025
Lixy Technologies <i>Frontend Developer</i> - Built and optimised a Nuxt SSR application, improving TTFB and LCP through code-splitting and lazy loading. - Developed a custom chat widget integral to the company's launch strategy and enhancing customer engagement. - Migrated the maps functionality from Google maps to leaflet.js, which significantly reduced API costs. - Enhanced the application's performance by 30% through code splitting and lazy loading.	11/2020 – 02/2021 San Francisco, USA
Flux Technology Africa <i>Frontend Developer</i> Improved UX and checkout performance for a food delivery platform.	08/2020 – 10/2020 Lagos, Nigeria
Google Andela Development Program <i>Frontend Developer Intern</i> Built frontend applications with HTML, CSS, JavaScript, and REST APIs.	05/2019 – 10/2019 Lagos, Nigeria

Projects

VBox (Open Source) - Vue.js plugin 🔗 <i>An open-source Vue.js plugin that provides a polymorphic component with a lightweight styling engine.</i> - Built a polymorphic component system enabling CSS-in-attributes styling - Supports responsive breakpoints, container queries, vendor prefixing, theming - Designed for scalable design system development	10/2025 – 12/2025
VueDrill 🔗 <i>Deepens the understanding of engineers about Vue.js, Pinia, and Vue Router through actionable pro tips and curated quizzes.</i> - Contains 50+ pro tips on Vue.js, Vue router and Pinia - Contains interactive quizzes, code snippets & documentation links.	12/2025 – 01/2026

Certificates

- Udacity Full-stack Developer Nanodegree, freeCodeCamp Backend Development & APIs

Education

University of Benin
Pharmacy
 11/2011 – 11/2017 | Nigeria
Transitioned into software engineering and have worked professionally since 2019.
