GitHub Portfolio

Profile

Lead frontend engineer with 6+ years of experience building accessible product interfaces and shared frontend systems with TypeScript, Vue.js, and React. At SeamlessHR, I lead a Vue 3 and TypeScript design system used across 15+ SaaS products and support approximately 15 frontend engineers. I bring strong ownership across component architecture, accessibility, developer experience, mentoring, and product delivery.

Skills

Frontend
TypeScript, Vue 2, Vue 3, Nuxt.js, Vuex, Pinia, React.js, Vuetify, VeeValidate, Stencil.js, GraphQL, Tailwind CSS, SCSS, HTML, CSS, Figma

Architecture and CI/CD
Monorepo, Micro-frontends, GitHub Actions

AI/LLM
OpenAI SDK, Prompt engineering

Backend
Node.js, NestJS, Fastify, Express.js

Testing
Vitest, Testing Library (React, Vue.js), Vue Test Utils, Jest, Playwright

Professional Experience

SeamlessHR
Lead Frontend Engineer — March 2025–Present
Frontend Engineer — May 2021–February 2025

05/2021 – present
Lagos, Nigeria

- Lead the UI library team and maintain Seamkit UI, SeamlessHR's Vue 3 and TypeScript design system used across 15+ SaaS products.
- Led the delivery of 40+ reusable, accessible components, improving brand consistency and significantly reducing frontend delivery time.
- Received the 2025 Seamstar of the Year award for leading the adoption of Seamkit UI and supporting product teams through migration from the previous component library.
- Defined component architecture, contribution principles, Storybook documentation, and accessibility standards while partnering with designers on component UX.
- Organized accessibility training for frontend engineers covering keyboard support, semantics, focus management, and inclusive interface composition.

Olanna 03/2026 – 05/2026
Senior Frontend Engineer (Contract, React.js) San Francisco, USA (Remote)

- Built reusable frontend primitives for real-time chat, voice previews, inbox, listen-in sessions, and live transcription using Next.js, TypeScript, and WebSockets.
- Delivered authentication flows and knowledge-base tooling for RAG ingestion, including rich text, file uploads, and URL-based sources.
- Proposed the shared-schema generative UI architecture adopted by the team, enabling backend responses to map safely to frontend components.

Lixy Technologies 11/2020 – 02/2021
Frontend Developer San Francisco, USA

- Optimized a Nuxt SSR application through code splitting and lazy loading, improving TTFB and LCP and increasing overall performance by 30%.
- Developed a custom chat widget that supported the company's launch strategy and improved customer engagement.
- Migrated the mapping functionality from Google Maps to Leaflet, significantly reducing API costs.

Flux Technology Africa 08/2020 – 10/2020
Frontend Developer Lagos, Nigeria

- Improved UX and checkout performance for a food delivery platform.

Google Andela Development Program 05/2019 – 10/2019
Frontend Developer Intern Lagos, Nigeria

- Built frontend applications with HTML, CSS, JavaScript, and REST APIs.

Open-Source Contributions

- **Axios** — Contributed global search functionality to the documentation website.
- **React Haiku** — Contributed the <Classes /> utility component.

Projects

VBox — Open-Source Vue.js Plugin 10/2025 – Present
An open-source Vue.js plugin that provides a polymorphic component with a lightweight styling engine.

- Built a polymorphic component system enabling CSS-in-attributes styling.
- Supports responsive breakpoints, container queries, vendor prefixing, theming.
- Designed for scalable design system development.

VueDrill 12/2025 – 01/2026
Helps engineers deepen their understanding of Vue.js, Pinia, and Vue Router through actionable tips and curated quizzes.

- Provides 50+ practical tips, interactive quizzes, code examples, and links to official documentation.

MyfastMeds 01/2026 – 07/2026

- Owned the end-to-end delivery of a medicine commerce platform as the sole full-stack engineer using Next.js, NestJS, and TypeScript.

- Built the storefront, product discovery, cart and checkout experiences, authentication, notifications, APIs, and supporting backend workflows.

Certificates

- Udacity Full-stack Developer Nanodegree, freeCodeCamp Backend Development & APIs

Education

University of Benin
Doctor of Pharmacy
11/2011 – 11/2017 | Nigeria
Transitioned into software engineering and have worked professionally since 2019.
